

The International Conference on Medical and Health Research (ICOMHeR) is a platform for interdisciplinary health scholars, scientists and practitioners seeking to address and overcome the complex problems in health issues. The event will build and develop initiatives featuring every medical and health discipline in the health scientific endeavour development.

The event's current theme is "Medical and Healthcare Improvement through Innovative Research and Interdisciplinary Collaboration". In enthusiastic spirit, this conference is trying to broaden the perspectives and build significant yet consistent cooperation among various health disciplines. ICOMHeR will stimulate dynamic and positive interactions between any medical and health disciplines. The event will be an important occasion in gathering intellectual findings and innovations in medical and health fields.

The first International Conference on Medical and Health Research will be held in Padang, 18-20 October 2018 Hosted by Universitas Andalas under medical and health-focused faculties, and will welcome any papers not just from the core subjects, but related subjects as well.

Grand Inna Muara Hotel

Padang, ID

18 October 2018 – 20 October 2018
