

The International Conference on Mechanical Engineering and Emerging Technologies (ICOMEET) is a new international conference organized by Mechanical Engineering Dept, Engineering Faculty, Universitas Andalas. The organizing committee was fully involved to hold the Conference on Innovation in Technology and Engineering Science (CITES) in 2018 and 2020 and successfully attended by distinguished keynote speakers and hundreds of participants worldwide. As a part of the CITES, the ICOMEET open opportunity for experts and professionals to exchange new ideas in the mechanical engineering fields and emerging technologies.

The ICOMEET will be held online and offline (hybrid meeting) on 3-4 November in Padang, Indonesia, the capital city of West Sumatera Province. Keynote speakers and overseas participants will be attending virtually through the ZOOM Webinar platform. While domestic participants can be choosing to participate online or offline during registration. Padang City is well known for its Minangkabau culture, delicious cuisine, and beautiful sunset beaches. Offline participants can visit Padang and the surrounding area, or spending time diving, snorkeling, or boat traveling at many beautiful islands such as Sikuai, Mandeh, and Mentawai. About 2 hours driving from this city, there is Pagaruyung palace, a beautiful historical site that introduces visitors to Minangkabau's traditional cultures.

Keynote Speakers:

1. Prof. Akio Kodama (Kanazawa University, Japan)
2. Prof. Dr. Mohd. Hasbullah (Universiti Teknologi Malaysia, Malaysia)
3. Prof. Cortino Sukotjo, DDS, Ph.D. (University of Illinois, USA)
4. Prof. Belkacem Zeghmati (Universite Perpignan Via Domitia, France)
5. ssoc. Prof. Dr. Eng. Lovely Son (Universitas Andalas, Indonesia)

Importance Date:

Full paper submission: 14th September 2021 Notification of Acceptance/Reject: 5th October 2021
Registration Deadline: 19th October 2021
