

The International Conference on Disaster Mitigation and Management (ICDMM 2021) is a premier forum for the presentation of new advances and research results in the field of Disaster Management. The conference will bring together leading researchers, engineers, architects, scientists, and other professionals in various disciplines of social science and engineering around the world related to disasters. The ICDMM 2021 conference aims to establish scientific links at international level for sharing and disseminating valuable information of the latest research activities in Disaster management. Best papers and presenters in each category will be selected and awarded. The language of ICDMM 2021 will be in English.
